

How to be a good guest at an international comenius meeting

Tip 1: Be nice:)

Your host family doesn't get any money for your stay, so always be nice and friendly! And keep in mind that your behavior represents your country.

Tip 2: Be open!

Be open for a different culture! Different food, customs and habits are normal. Don't say you don't like the food because you don't know it, before you even tried it out. It might be delicious!

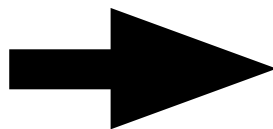

paella

tapas

Tip 3: The trip is no vacation!

Remember, the trip is no vacation. Of course you are allowed to have fun but you have to do something for the project, too. Be creative and think how to solve environmental problems!

Tip 4: Communicate!

The trip is a great chance to improve your English or even your Spanish skills. So communicate! Talk to your host family if you have problem or try out some smalltalk!

If you stick to these tips during your trip, you are going to make yourself and your host family an amazing time!
